Excel to MySQL: Analytic Techniques for Business

Formulate data questions, explore and visualize large datasets, and inform strategic decisions. In this Specialization, you'll learn to frame business challenges as data questions. You'll use powerful tools and methods such as Excel, Tableau, and MySQL to analyze data, create forecasts and models, design visualizations, and communicate your insights. In the final Capstone Project, you'll apply your skills to explore and justify improvements to a real-world business process.

Daniel Egger, Executive in Residence and Director, Center for Quantitative Modeling, Pratt School of Engineering
Jana Schaich, Assistant Research Professor, Social Science Research Institute
